

Introducing

[OUTAGE[®] IN A BOX]

Simplify Your Next Planned Outage with a
Complete Consumables Kit Delivered to You

OUTAGE IN A BOX[®]

Sourcing + Inventorying for Planned Outages Has Never Been Easier

It's Simple. Here's How It Works:

- 1. Ship.** We ship you all of the nuts, bolts, seals, thermocouples and other consumable parts you need right before your outage begins.
- 2. Inventory.** During your plant's downtime, select the parts you need for your repairs and replacements from the on-site inventory.
- 3. Done.** Once your outage is complete, we'll coordinate the box pickup and send you an invoice for *only the parts you used*.

NO RESTOCKING FEES!

The OUTAGE IN A BOX[®] Advantage

Save Time + Hassle

Eliminate the time spent calculating and sourcing consumable parts and the hassle of negotiating with countless vendors

Avoid Risk

Stop over- or under-purchasing consumables to avoid wasting money on unused inventory and to minimize downtime by no longer waiting on additional parts to ship

Easy Inventory

Quickly locate and mark off all parts needed with included computer and barcode scanner that tracks the location and quantity of parts used

Features

- Completely customizable to your site's needs
- Arrives before the outage so you can inventory
- CI, HGP or MAJOR inspection kits available
- Fully-stocked, secured conex with plenty of space

Unscheduled Outage?

Give us a call. Our stocked inventory on hand may swiftly support your outage needs.
