

HIGH VOLTAGE, INC.
**HVI - The World's Source for
High Voltage Test Equipment**

Advanced test equipment for high voltage proof and preventive maintenance testing of electrical apparatus +1.518.329.3275 | sales@hvinc.com | web:www.hvinc.com

**AC Dielectric
Tester**

AC Dielectric Tester

Model: FPA-12/066F

0 - 6 kVac @ 1 amp

0 - 12 kVac @ .5 amps

High Voltage Testing Motor & Generator Coils?

Have Questions?

- AC Withstand, TD/PF, or PD Testing?
- Don't know the size Hipot you need?
- Don't know how to find out?
- Don't know where to get it?

We Have Answers!

- High Voltage, Inc. is here to help.
- Produces many types of HV testers!
- Worked with m/g repair for years!
- Knows the requirements & delivers!
- AC & DC hipots small and large!
- Bench top & field portable models

< Made for Winding Testing

The **FPA-12/066F** is designed to test motors and generators rated to 6 kVac. Other models can test higher voltage and capacitance motors up to 40 kVA. Diagnostic testing with Tan Delta/Power Factor & Partial Discharge available.

**All HVI Products are
Made in the USA**
