CONVERGING ALL THE RESOURCES, HOW WE HAVE ACHIEVED THE UNSHAKEABLE CORE VALUES!

Moon and stars, mountains and rivers. The universe gives the world abundant resources; that creates our fortune and happiness, and promising us the possibility of a better life.

None of those things can be achieved through single resource.

For the past 30 years, we, King Sun Group, have been providing our clients with professional products and services. We have accumulated various skills, knowledge, and experience in this field. Based on that, we are well prepared to offer our clients more profound and integrated service. Our goal is to transform ourselves from a simple products-wised manufacturer into an integrated system provider.

Just like the earth revolving around with the resources from the universe, we are tirelessly marching toward our goal, carrying on the expectations of our clients and the society.

EMERGING AND ERUPTING OF ENERGY

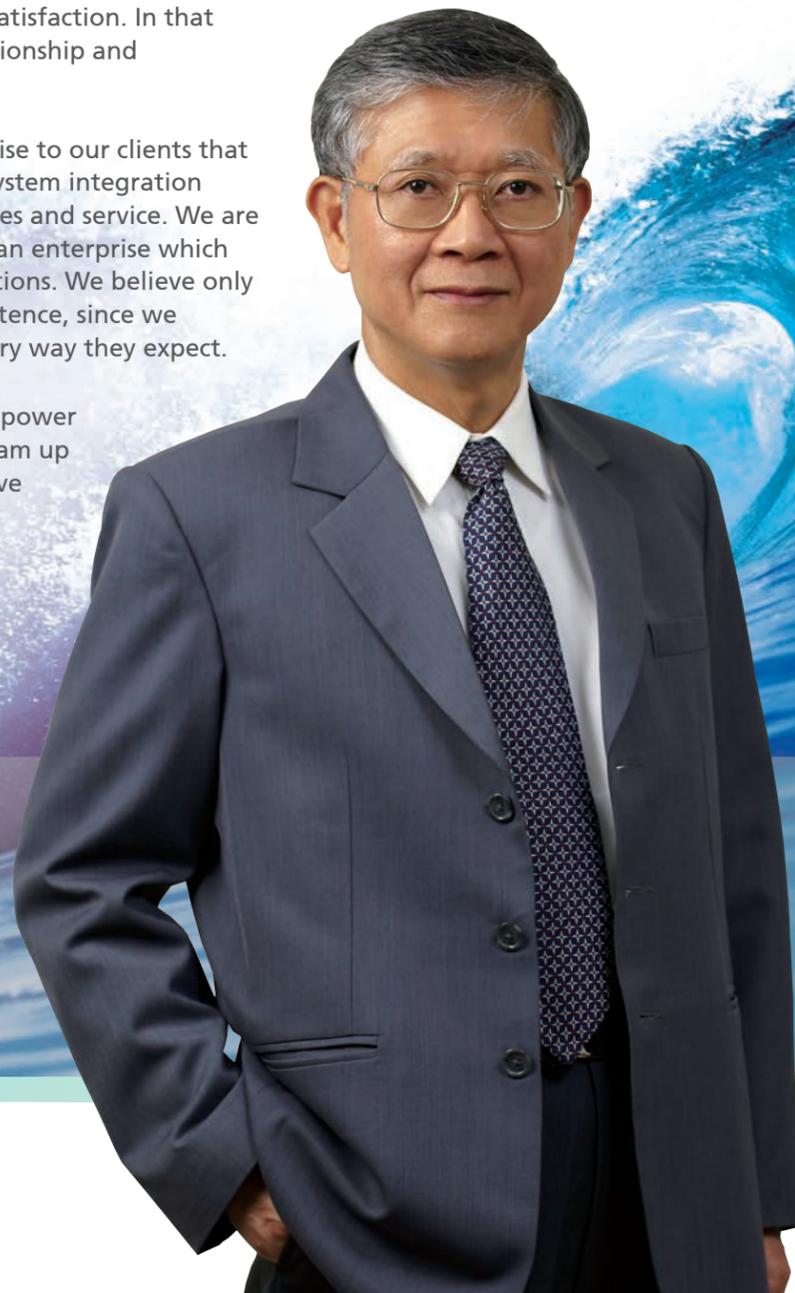

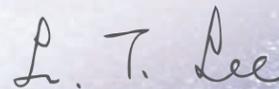

- Our Vision, Persistence and Competitive Strength

"To do things honestly and to treat people with sincerity" is the motto we have always been using for self-tempering and encouraging ever since our establishment back to 33 years ago. We put that into practice in our daily life and have never changed or stopped it over the years, even though the world has kept changing rapidly and dramatically in the past decades. Because of the persistence, we are able to provide our clients with professional products and service, and win their trust and satisfaction. In that way we have established long term good relationship and friendship with our clients.

We are devoting ourselves to realize the promise to our clients that King Sun can provide them with a full range system integration service which integrating products, technologies and service. We are putting all our energy and efforts to build up an enterprise which can offer its clients with customized total solutions. We believe only in that way can we prove the value of our existence, since we regard it as our mission to satisfy clients in every way they expect.

Please join us and benefit yourselves from the power of our system integration service. When we team up together, we will surely be the most competitive enterprises in the field of our industries.

General Manager

Milestones - Engraved Step-by-Step!

- Big Events In Our 33 Year's History

- 1978** Firm was founded.
- 1979** Establishment of overseas market business department; became a member of CTI.
- 1984** Successful development of the first KLN low-noise cooling tower. Completed three KLN-S-700 for the National Dr. Sun Yat-sen Memorial Hall; received excellent feedback.
- 1985** Launch of cooling tower in the US. Completed installation of three KST-1000 for NASA; were certified by CTI.
- 1988** Completed installations at the Miami Beach Convention Center MBCC; were certified by the CTI.
- 1992** Completed Tuntex Petrochemical Corp. concrete structure 21,000 M³/hr, 8 cells industrial cooling tower.
- 1993** Started a production line at the Shanghai factory.
- 1998** Reconstructed the Chungli factory and turned it into a 7-floor manufacturing factory. Both the Taipei headquarters and the Shanghai factory were ISO 9001 certified.
- 2002** Won the grooved end mechanical coupling contract engineering project for the Taipei 101 financial building. CPC industrial tower at Zuoying, Kaohsiung (water flow of a single cell: 4,500 M³/hr), a total of 8 cells.
- 2003** Started production line in the Sanhe factory in Beijing. Acquisition of the Taoyuan factory (7,000 M²). Acquisition of Horus Ventilator, a 30 year-old company, into the King Sun Group.
- 2006** Won the contract for the CPC industrial tower at Dalin (Water flow of a single cell: 3,636 M³/hr), a total of 4 cells. Was contracted, with the Japanese MIE Techno Co. Ltd., to set up a factory in Taoyuan for the production of MIE Grip press coupling. Two series of Horus ventilators were AMCA certified. Horus ventilator laboratory was certified by the TAF laboratory.
- 2007** Started the production of press coupling under technical collaboration with Japanese MIE Techno Co. Ltd. The Shanghai factory signed technical collaboration agreements with various academic institutes. The Shanghai ventilator laboratory was certified by the CNAS (China National Accreditation Service for Conformity Assessment).
- 2008** Performance of cooling tower was certified by the CTI.
- 2009** Passed ISO 9001 2008 version.
- 2010** Acquisition of a second production factory at Chungli; factory area of 21,697.43 M² and land area of 19,835 M².
- 2011** Taipei headquarter and Chungli factory were verified by ISO 14001 Environmental Management System.

SOLID, STEADY, CONSTANT IMPROVEMENT

- Realistic and Sound Organizational Development

Mountains, rivers, forests and pastures make up the natural beauty of a land; in this way that things combine to form perfection, King Sun built its organization together with the efforts from its colleagues over the past decades. With our vision of evolving into an integrated systems provider, every single step that we have taken in the past 30 years has been solid, steady, and worthy of clients' faith in us.

King Sun Group

INHERITING, RELAYING, ENDLESS-GROWING

- Unremitting Training and Education

Together, we grow with our employees; progress and solidarity with our employees define King Sun.

We have provided consummate educational and advancement training for our employees over the years:

- Develop a complete educational and training system.
- Orientation program for new employees.
- Departmental training for new employees.
- Functional training for middle and senior management.
- Provide tuition support for employees to pursue advanced studies.

We do not take for granted our gifted and dynamic staff who diligently everyday create new value for customers. Our employees motivate us to constantly pioneer new directions.

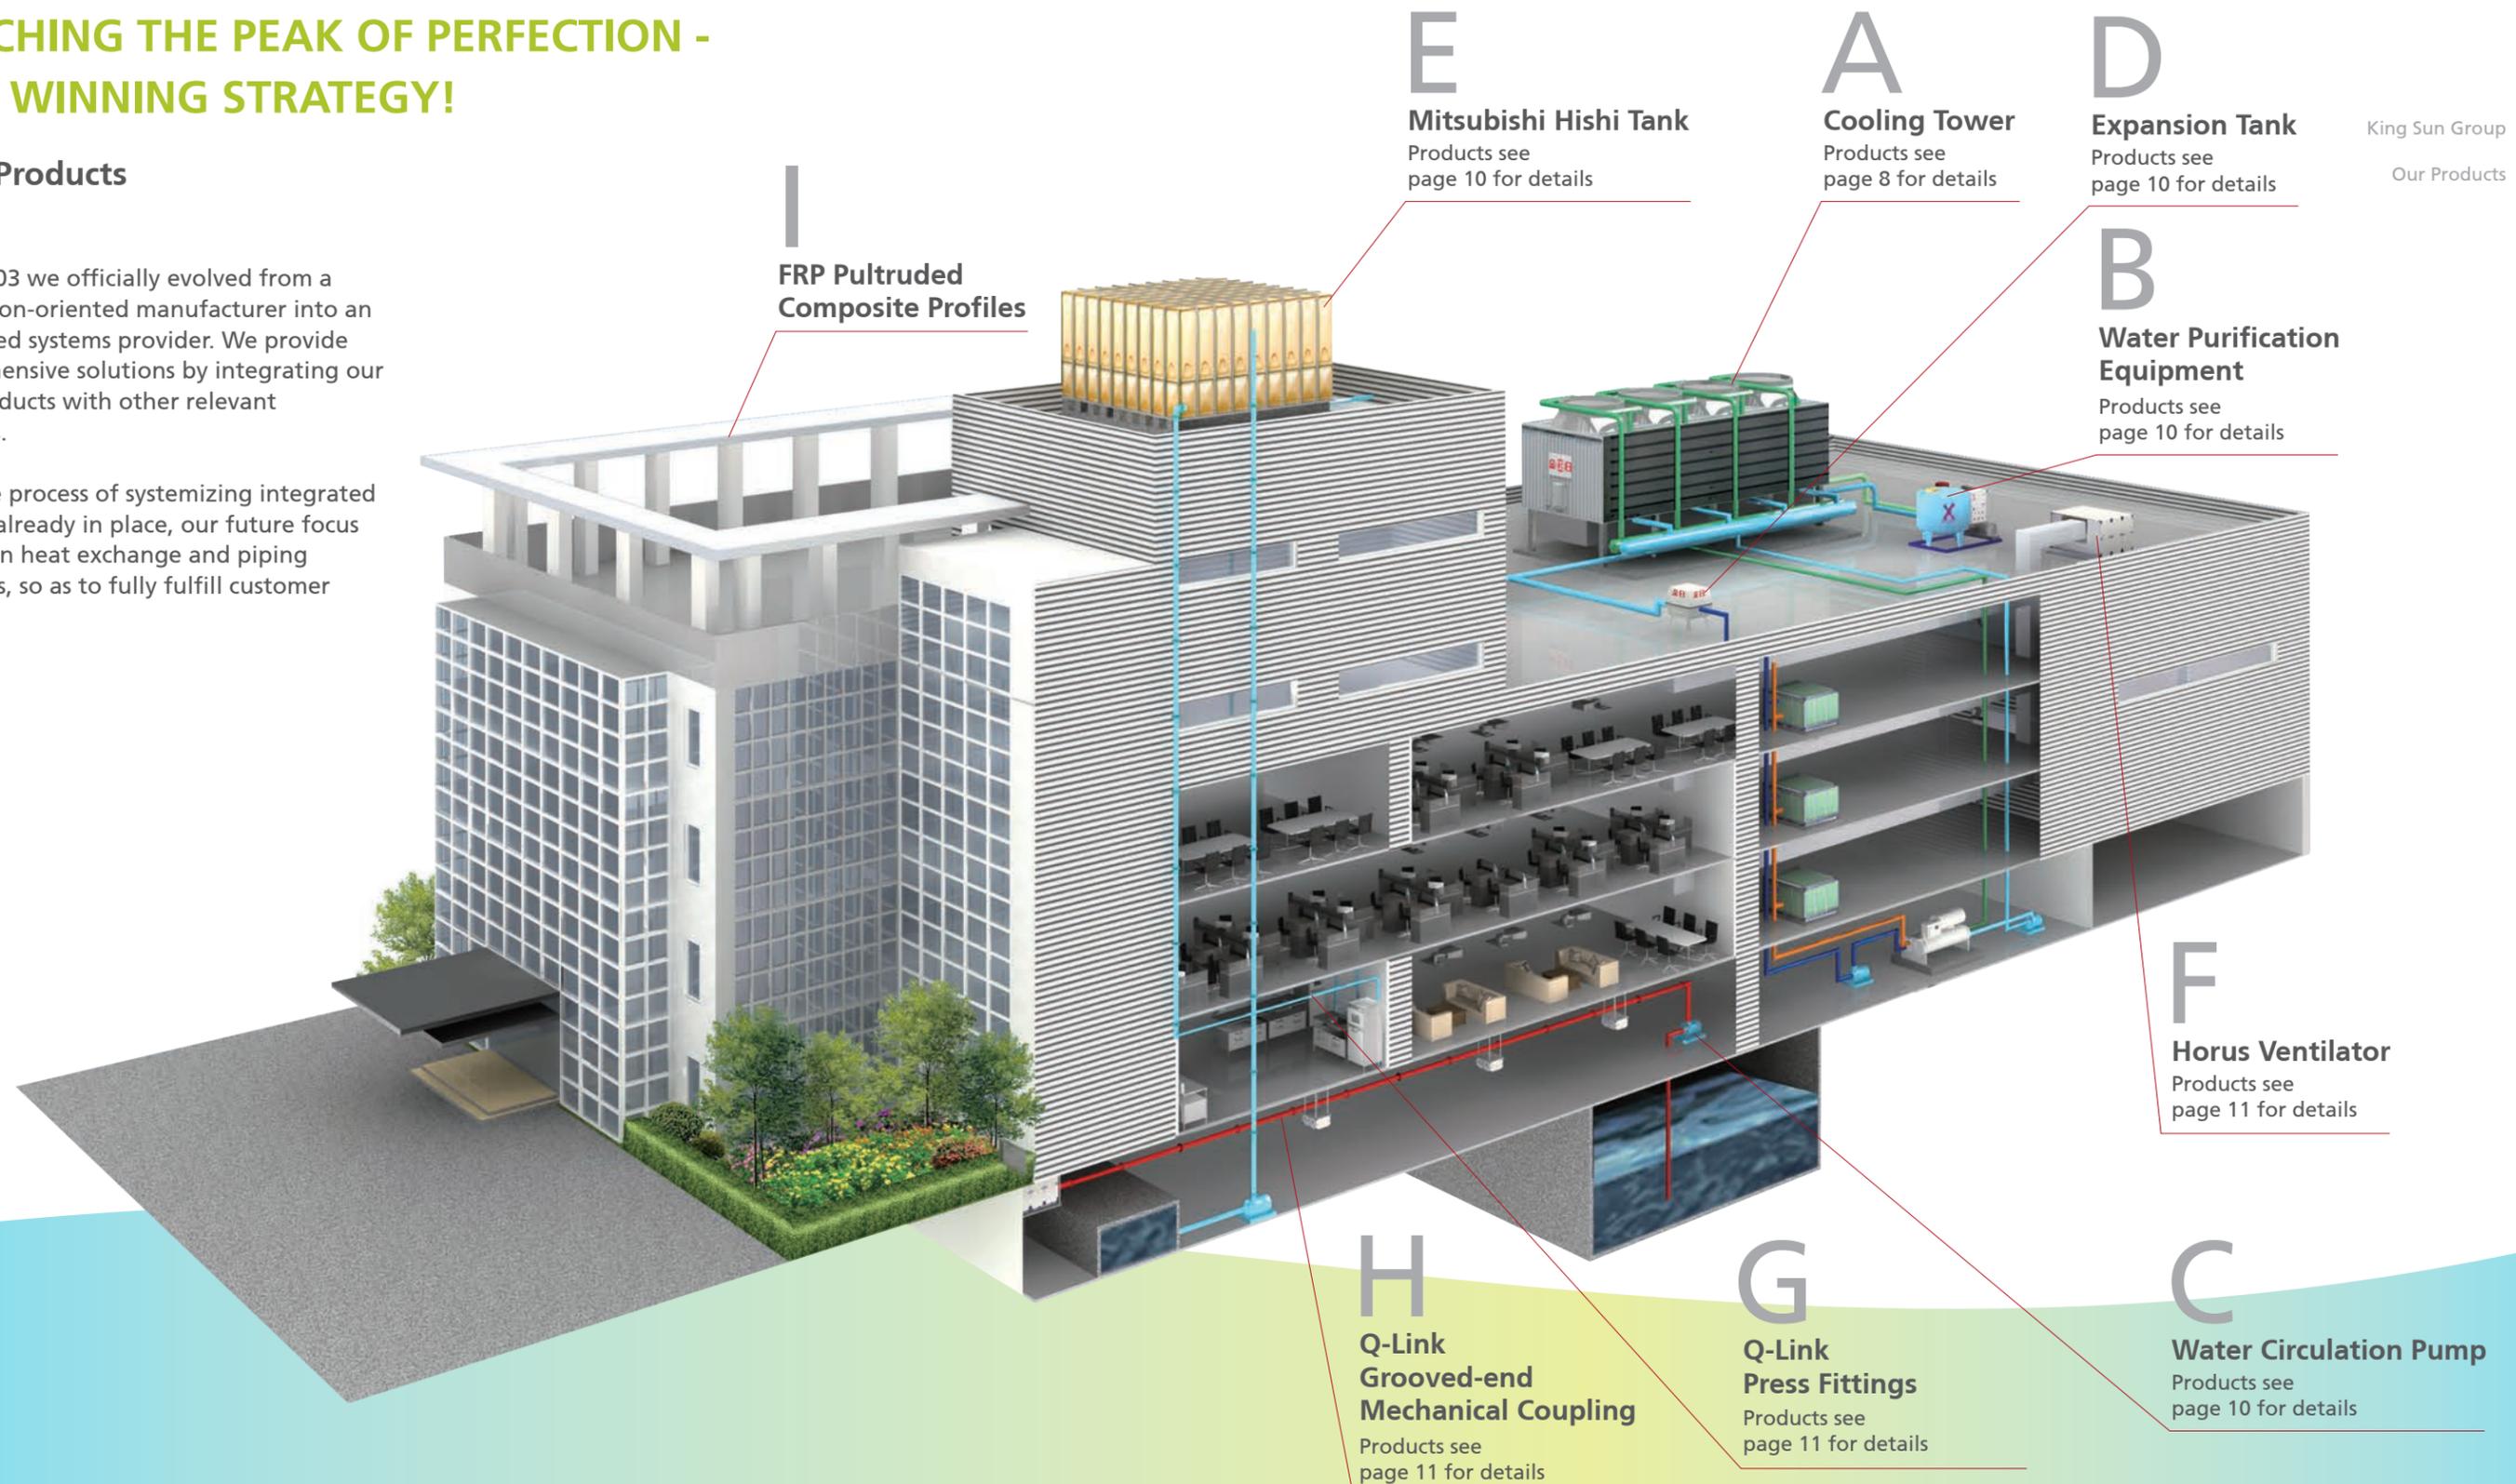

REACHING THE PEAK OF PERFECTION - OUR WINNING STRATEGY!

- Our Products

Since 2003 we officially evolved from a production-oriented manufacturer into an integrated systems provider. We provide comprehensive solutions by integrating our own products with other relevant products.

With the process of systemizing integrated services already in place, our future focus will be on heat exchange and piping materials, so as to fully fulfill customer needs.

A

Cooling Tower:

1. Open Type Cooling Tower

- 1 KST-N / Round low-noise tower
- 2 KLN / Round ultra low-noise tower
- 3 KST-H / Round high temperature tower
- 4 KFT / Square counterflow tower
- 5 KH / Square crossflow tower

2. Forced Draft Cooling Tower

- 1 KSB / Forced draft cooling tower

3. Closed Circuit Cooling Tower

- 1 KCC / counterflow
- 2 KHC / crossflow

4. Industrial Cooling Tower

- 1 Counterflow (FRP/HDGS/Wood/RC structure applied)
- 2 Crossflow (FRP/HDGS/Wood/RC structure applied)

B

Water Purification Equipment:

- 1 XF sand filter
- 2 XP Impurities separator
- 3 XD automatic chemical feeder

F

Horus Ventilator:

- 1 Centrifugal type
- 2 Axial type
- 3 Inductive type
- 4 Air Handling Unit

C

Water Circulation Pump

D

Expansion Tank

G

Q-Link Stainless Steel Press Fittings:

- 1 Fittings
- 2 Valves

E

Mitsubishi Hishi Tank:

- 1 FRP type
- 2 SUS type

H

Q-Link Grooved-end Mechanical Couplings & Fittings:

- 1 Fire Fighting Series
- 2 Air Conditioning Series
- 3 Water Supply Series
- 4 Valves
- 5 Piping Materials

CEASELESS RESEARCHING, TESTING AND IMPROVING

- Leading R&D Technology

Our research centers are located in Taiwan and Shanghai. We consider environmental protection as important as is development of new products; therefore, energy conservation, low power consumption, low water consumption and low noise production have become our goals.

Moving toward world-class technology:

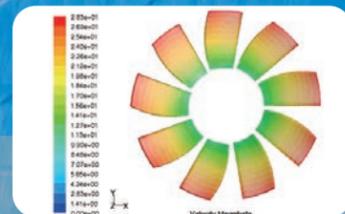

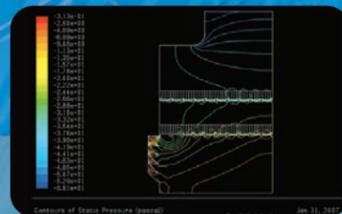

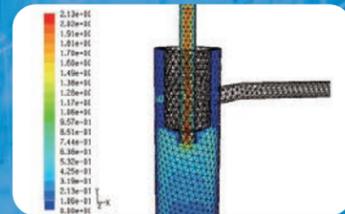

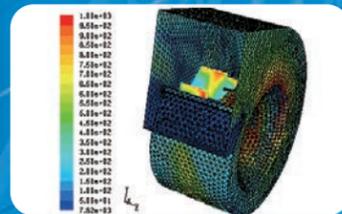

Laboratory setup: testing laboratories that comply with international standards have been established in Shanghai and Taoyuan.

Basic research: develop a complete mathematical model using scientific bases, simulation and experiments.

Technology collaboration: exchange of ideas among universities and institutes in Mainland China and Taiwan.

Flow simulation: develop flow simulation and perform design validation to lower development costs.

Product certification: promote AMCA certified ventilators and CTI certified cooling tower.

PROOFS OF OUR ACHIEVEMENTS

- Patents & Certificates

King Sun has been successful in every venture and facet over the past 30 years. Listed below are the system verification, management certification, and various patents & certificates:

TIRELESS EFFORTS, WIDE-SPREAD SERVICE

- Our Sales Locations and Factories

King Sun's sales operations are located throughout Taiwan, China, Asia, the Americas, Europe, Australia, Africa and the Middle East.

In addition to the headquarters in Taipei, we have subsidiary offices in Shanghai and Beijing. Full product promotion and consultation services are available globally at all locations.

Mainland China

- Guangzhou
- Fuzhou
- Nanchang
- Changsha
- Guiyang
- Chongqing
- Chengdu
- Wuhan
- Wenzhou
- Hefei
- Hangzhou
- Ningbo
- Nanjing
- Shanghai
- Henan
- Xian
- Lanzhou
- Ningxia
- Taiyuan
- Shijiazhuang
- Tsinan
- Qingdao
- Tianjin
- Beijing
- Baotou
- Dalian
- Shenyang
- Changchun
- Harbin
- Xinjiang

Taiwan

- Taipei (headquarter)
- Horus Taoyuan facility
- Taoyuan
- Dayuan facility
- Chungli facility
- Chungli No.2 facility
- Hsinchu
- Taichung
- Tainan
- Kaohsiung

- Overseas Factories and International Sales Network

Asia

- Bangladesh
- Cambodia
- Mainland China
- Indonesia
- Japan
- Jordan
- Malaysia
- Saudi Arabia
- Sri Lanka
- United Arab Emirates
- India
- Turkey

- Singapore
- Thailand
- Vietnam
- Oman
- Pakistan
- Philippines

America

- Argentina
- Canada
- Peru
- Trinidad
- United States of America
- Uruguay

Oceania

- Australia
- Fiji
- New Zealand
- Papua New Guinea

Europe

- Cyprus
- Denmark
- Greece
- Italy

Africa

- Benin
- Egypt
- Mauritius
- South Africa
- Sudan
- Senegal
- Nigeria

World Connection

GIVING US GLORIES, HOLDING US HUMBLE

- References of Our Projects

King Sun has made countless achievements over the last 30 years, all attributed to the joint efforts from our customers. We believe that King Sun will continue on its important journey while purveying hope and high expectations to its customers.

Achievements in Overseas

- National Aeronautics and Space Administration (NASA) / KST round tower
- Miami Beach Convention Center / KST round tower
- Chicago mall / KST round tower
- Broward County University / KST round tower
- Mitsui Engineering & Shipbuilding facility / KFT counterflow tower
- Japanese GPS power plant / KFT counterflow tower
- Cambodia Prime Minister's Office / KFT counterflow tower
- Maritime and Port Authority of Singapore (MPA) / KLN round low-noise tower
- Jordan JIZZA steel facility / KFT counterflow tower

UNSHAKABLE RESOLUTION AND VISION

- Our Dreams, Actions, and Persistence!

Long journey must begin with a good first step. With that saying, King Sun Group has officially commenced its next 30-year round journey.

Steadily standing on the foundation built up through our first 30-year's endeavors, carrying the trust we have earned and the commitments we made, we will prove to our clients the value of "system integration solution", and use that to offer our clients a full range support.

KING SUN

Your Best Partner for Projects of Processing,
Ventilation, Heating and Air-Conditioning!
